### **Code of the Town of Corinth Code**

#### **§89-43 Clearing of Land**

##### A. Lumber or timber harvesting.

1. Purpose: The forest industry and the production of forest products are an important component of the local economy. Forestry and cutting or management of forests are temporary commercial uses of land. As a commercial use there is the potential for temporary and permanent off-site impacts, including visual, water quality and road damage, and, therefore, it is necessary to regulate forest harvesting.
2. Level of forestry.
  - a. Level 1:
    - i. Project must complete a no-fee registration with Zoning Administrator.
    - ii. Log landing must be 100 feet set back from paved roadway.
    - iii. Log land should be screened from view.
    - iv. New York State Department of Environmental Conservation timber harvesting guidelines must be followed.
    - v. No lumbered land that has been clear cut shall be considered for residential development for at least five (5) years after completion of lumbering activities on that section of land.
    - vi. A harvesting plan must be submitted and filed with the Zoning Administrator.
  - b. Clear Cutting of 10 or more acres:
    - i. Above regulations.
    - ii. A Thinning Plan must be submitted to show that the land will not be completely clear cut.
